Import.io - Core

❖ *Index*

- ➢ Initial process
- ➢ Workbench Snapshot selection
- ➢ UAT Feed selection process.
- ➢ Scorecard Preparation
- ➢ UAT validation process for C1
- ➢ Attributes validation in CDQA
- ➢ The debugger verification process for issues
- ➢ Critical checks in the UAT tool (C1 justification addition):
- ➢ C2 Passing Criteria.
- ➢ C3 Passing Criteria.

❖ *Initial Process*

- ➢ Pick the source from the work assignment sheet which is assigned to you.
- ➢ Go to JIRA and change the assignee name to your name and update the status to In Test
- ➢ Check all previous comments and note down why they failed before.
- ➢ Get AWS file locations of core files from workbench.

➢ Go to AWS S3 and follow the location paths for both files and download.

➢ Create folders in Drive, upload downloaded files.

➢ Make a copy of the master scorecard and move the copy to the Domain folder.

❖ *Workbench Snapshot selection:*

Snapshot:

For the core feed, we need to select the domain name given and we need to search in the workbench under collections

Digital Shelf (production & staging) - No Adhoc Runs -> Collections -> Core -> Sources -> Source name -> Snapshots. We need to pick the

Latest snapshots only within 48 hours

The snapshot should be completed with 99% or 100% then only we can pick for QA.

ACTIVITY   Comments ▾

❖ *UAT Feed selection process:*

In the UAT tool, we need to search with either feed ID/Store name and select the feed type & locale then we can find the domain name with respective date and be able to check the status of the feed.

Example UAT Status :

OV Missing, UAT Complete, Error - No Rows Matched In Import File Using PK retailer_product_code, Error - No PK Found, Quick Kickback-product_description Empty

❖ *Scorecard Preparation*

❖ Folders should be created in the DS Drive folder with Domain name with locale. Core Scorecard Template file should be added to this folder and Rename the file.

File name format: Source name_ Locale _ Feed type - YYYYMMDD
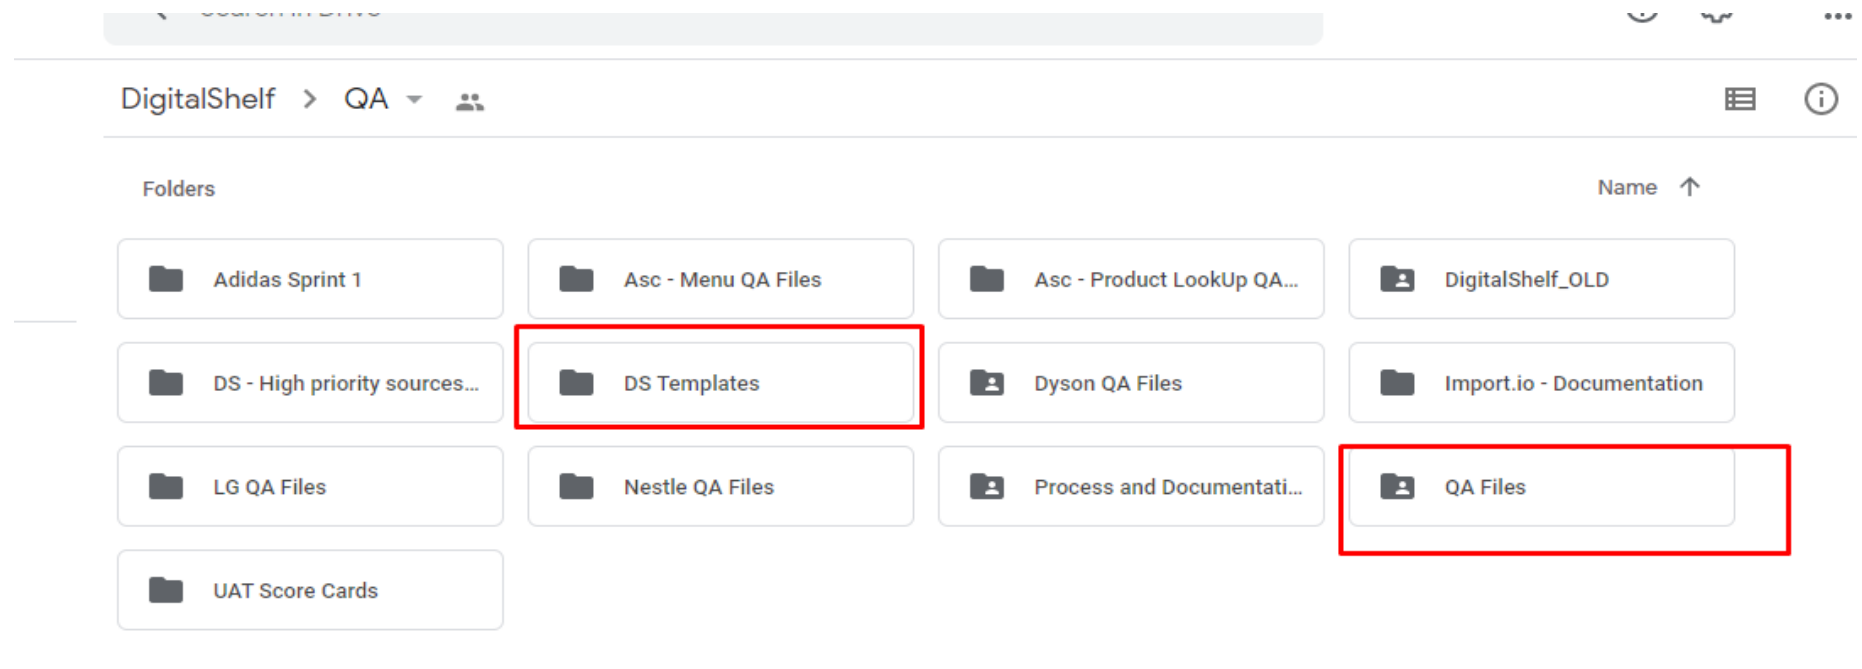

❖ _UAT validation process for C1_

Step 1: Search in UAT tool with feed name and Feed type (Core, Search, Im)

| High-level | Detail | Custom Reports | OV Missing |

Select a Date Range for Feeds UAT'd

| Refresh | 2021-06-25 | to | 2021-06-28 |

☐ Enable Fast Track Filtering

Adjust UAT Score

0 ... 95

⬇ Download Table

Show 100 entries ... Search: [ ]

ID	Feed Type	Store	Country	Date File	Status	Status Updated	Similarity Score	PK - CV Score	UAT Score	Action
Al	All	All	All	Al	All	Al	All	Al	Al	Al
118452	geo	amazonfresh_geo	in	2021-06-28	OV Missing	2021-06-28 11:02:30	-1	-1	-1	Detail

Step 2: Using that Feed Id, we will check UAT. Forex: (15218).

Select a Date Range for Feeds UAT'd

| Refresh | 2021-06-14 | to | 2021-06-28 |

☐ Enable Fast Track Filtering

Adjust UAT Score

0 ... 95

⬇ Download Table

Show 100 entries ... Search: [15218]

ID	Feed Type	Store	Country	Date File	Status	Status Updated	Similarity Score	PK - CV Score	UAT Score	Action
All	All	All	All	All	All	All	All	All	All	All
115218	menu	lacuracao	pe	2021-06-18	T6 Critical Checks Complete - Ignore	2021-06-21 08:04:13	-1	-1	-1	Detail
15218	core	conforama	ch	2020-12-08	UAT Complete	2021-06-21 07:49:28	89.2	96.67	92.935	Detail

Step 3: Click on detail it will redirect to the below screenshot

High-level | Detail | Custom Reports | OV Missing

Feed Type: core
Store: conforama
Country: ch
Date: 2020-12-08

Import Row Count: 30
Other Vendor Row Count: 30
PK Row Count: 29 (retailer_product_code)
Import S3 File
X-Byte S3 File
Masterlist

All Standard Header Attributes Present: TRUE
Import Scrape Start: 2020-12-08 01:04:04
Import Scrape End: 2020-12-08 12:48:04
OV Scrape Start: 2020-12-08 03:01:44
OV Scrape End: 2020-12-08 03:02:13
Consistent Number of Columns per Row TRUE

Product Count by Availability Status: 33.3% (1/3) FAIL
Product Coverage: 100% (30/30) PASS
Void Check: 100% (30/30 - OV Non Void Products) PASS
HTML-JSON Check: No Invalid Data Points Found PASS
Masterlist Comparison: 100% (30/30) PASS
Character Length: No Cells Exceeding DB Restrictions PASS

Attribute Results

☑ Filter Fails | ☑ Filter Reporting | ☑ Filter Integrity

Show [50 ▼] entries | Search: [_____]

Attribute	Rule	Threshold	Score	# Import Blank Rows	# OV Blank Rows	In Import	In OV
All	All	All	All	All	All	All	All
promotion	Volatile Items	80.00%	86.21%	29	25	TRUE	TRUE
additional_description	Stable Items	95.00%	3.45%	0	0	TRUE	TRUE
enhanced_content	Stable Items	95.00%	0.00%	29	0	TRUE	TRUE

Step 4: Check whether all the critical checks are passed or not. If not then we have to give justifications in the above example product count by availability status is fail. So, I need to give justifications.

High-level	Detail	Custom Reports	OV Missing

Feed Type: core
Store: conforama
Country: ch
Date: 2020-12-08

Import Row Count: 30
Other Vendor Row Count: 30
PK Row Count: 29 (retailer_product_code)
Import S3 File
X-Byte S3 File
Masterlist

All Standard Header Attributes Present: TRUE
Import Scrape Start: 2020-12-08 01:04:04
Import Scrape End: 2020-12-08 12:48:04
OV Scrape Start: 2020-12-08 03:01:44
OV Scrape End: 2020-12-08 03:02:13
Consistent Number of Columns per Row TRUE

Product Count by Availability Status: 33.3% (1/3) FAIL
Product Coverage: 100% (30/30) PASS
Void Check: 100% (30/30 - OV Non Void Products) PASS
HTML-JSON Check: No Invalid Data Points Found PASS
Masterlist Comparison: 100% (30/30) PASS
Character Length: No Cells Exceeding DB Restrictions PASS

Step 5: Go to custom reports and check whether import retrieved correct data or not. Here in this case we have to check whether the Instock items are 29 or not like that we have to give justifications along with screenshots

High-level	Detail	Custom Reports	OV Missing

Product Count by Availability Status	Product Coverage	Void Check	HTML-JSON Check	Masterlist Comparison	Character Length	No Report to Show	No Report to Show	No Report to Show

No Report to Show

CSV Show 50 ⌄ entries

availability	import_product_count	ov_product_count	diff_perc
All	All	All	All
In Stock	29	28	3.6
Out of Stock	1	0	999999999999900
Out Of Stock	0	2	-100

Note: Similarly we have to do checks for master list comparison failure, product coverage failure, Void check failure, Character Length failure & row count mismatch.

❖ *Attributes validation in CDQA*

➔ Client Data Dictionary: https://docs.google.com/spreadsheets/d/1mSz64xLBNeojENyaoPJNnYZenDxToZ45jKvqUZayHRc/edit#gid=0

➔ We have to select some URLs from the t6 file for testing and paste it into the data sample in the template.

➔ We have to check on the web page by opening the URL.

➔ From there we have to verify the data if the data retrieved and webpage data is same then check the box or otherwise raise the issue.

➔ If data is not matching with the website, then need to cross check using debugger. Please check out "The debugger verification process for issues" section for detailed information.

➔ Check all the attributes and some attributes are deprecated one need not verify those deprecated ones. Forex

★ **Product_image :**

- Copy the image URL from the file.
- Go to the Image URL using the browser and check the image retrieved.
- Go to the product URL and check the main product image URL and the URL retrieved are the same.
- Check if the image URL is broken or https is missing in the URL.
- Check if the retrieved product main image URL is redirecting to the correct image or not.
- Check if the retrieved image size is more than 300x300.

  For Ex - Url- https://market.yandex.ru/product--nabor-konfet-rossiia-shchedraia-dusha-rodnye-prostory-s-arakhisom-i-vafelnoi-kroshkoi-125-g/150019067?cpa=1&sku=150019067&offerid=

  Product image: https://avatars.mds.yandex.net/get-mpic/1592982/img_id816648775440599550.jpeg/orig

★ **Keywords :**

- Go to the Product page using the product URL.
- Check for the keywords in the DOM.
- Check if the keywords are retrieved or not if available in the DOM.

- Check if the keywords are separated by commas.

Url: https://www.eapteka.ru/goods/id212932/?utm_referrer=https%3a%2f%2fwww.google.com%2f

keywords		1 of 1 ∧ ∨	Cancel

★ **Download_time :**
- Check the download time is coming by default. This is the time when data is fetched from the website.

    Ex : 06/22/2021 2:39:05 AM

★ **Url :**
- Copy the URL from the file.
- Check if the URL is redirecting to the product page or not.
- Check if the URL is broken or HTTPS is missing in the URL.
- Check the URL retrieved as per the country locale.

    For Ex: https://www.eapteka.ru/goods/id212932/?utm_referrer=https%3a%2f%2fwww.google.com%2f

★ Category :

- Go to the Product page using the product URL.
- Check the Bread crumbs on the website. (or) Search in the DOM for breadcrumbs.
- Home text, Website name and any common text cannot be retrieved as Category.
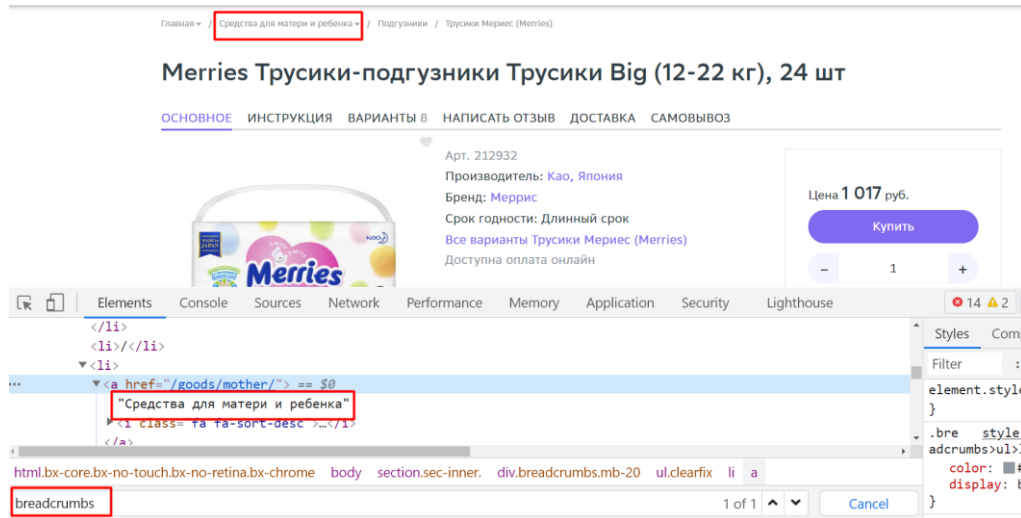

Ex : Средства для матери и ребенка

Url: https://www.eapteka.ru/goods/id212932/

★ Sub_category :

- Go to the Product page using the product URL.
- Check the Bread crumbs on the website.
- Search in the DOM for sub-category /category/ breadcrumbs.
- Check if subcategories are retrieved under this attribute.
- Product name can not be retrieved as a subcategory.

Ex : Подгузники > Трусики Мериес (Merries)

Url : https://www.eapteka.ru/goods/id212932

★ **Product_description :**
- Go to the Product page using the product URL.
- This is the name of the product (Title) - Should contain the full product description as it appears on the website and any appended info. (brand name, variant infos - size, color etc)

- Here we need to check if the Product name and a short description of the product available on the product page are retrieved under this attribute or not.

Ex: **https://www.eapteka.ru/goods/id212932/?utm_referrer=https%3a%2f%2fwww.google.com%2f**
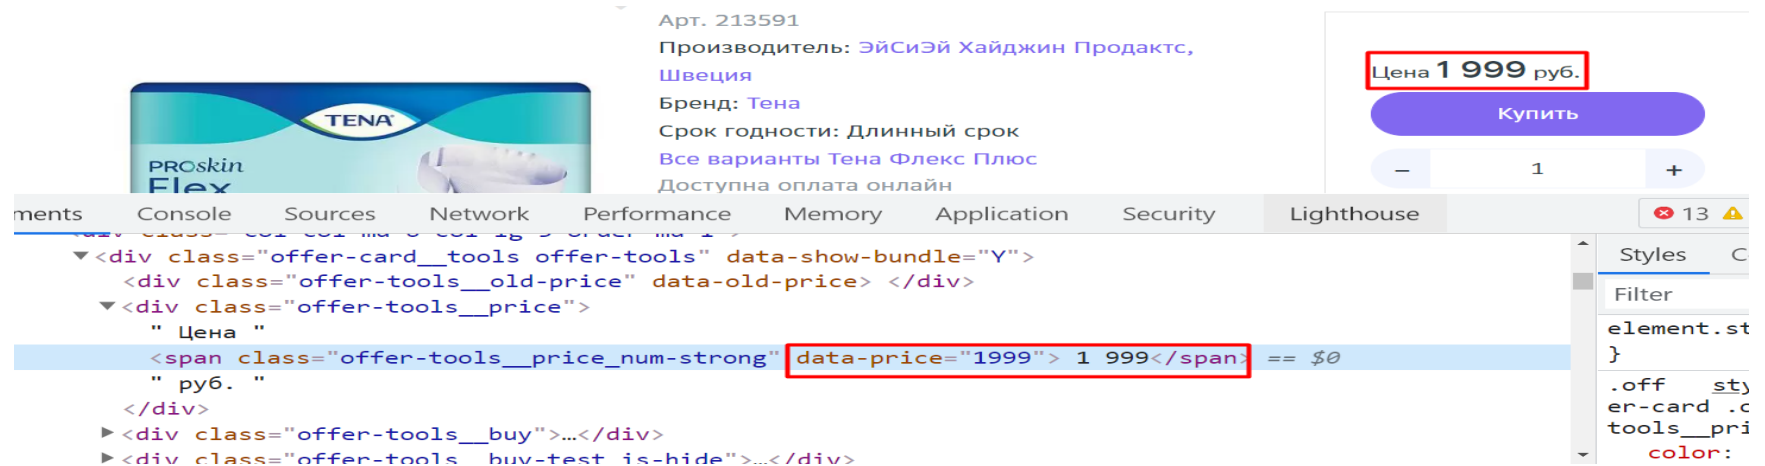

Product Description : Merries Трусики-подгузники Трусики Big (12-22 кг), 24 шт .

★ Online_price :

- Go to the Product page using the product URL.
- Compare the retrieved Online Price with the online price on the product page.
- This is nothing but a discounted price given on the product.
- This always should be a numeric value (Positive integer or decimal value).
- Currency is excluded as part of this attribute.

Ex: Url: **https://www.eapteka.ru/goods/id213591/**

Online price: 1999

★ Online_price_currency :

- Go to the Product page using the product URL.
- It's nothing but the currency symbol as per the respective locale.

Ex: https://www.amazon.com/Viva-Naturals-Fish-Supplement-Capsules/dp/B014LDT0ZM?ref_=Oct_s9_apbd_orecs_hd_bw_b7ZtYhP&pf_rd_r=2N4PEMMXMMEG59SWAFBD&pf_rd_p=ba396af d-5cfb5938-8d50-d154a3fdb62c&pf_rd_s=merchandised-search-10&pf_rd_t=BROWSE&pf_rd_i=6943343011

Currency Symbol : $

★ Availability :

- Go to the Product page using the product URL.
- Check if the Add to cart button is available on the product page to consider the product as "In Stock" else "Out of Stock".
- Check-in DOM by typing **Availability** or **Schema.org** text.
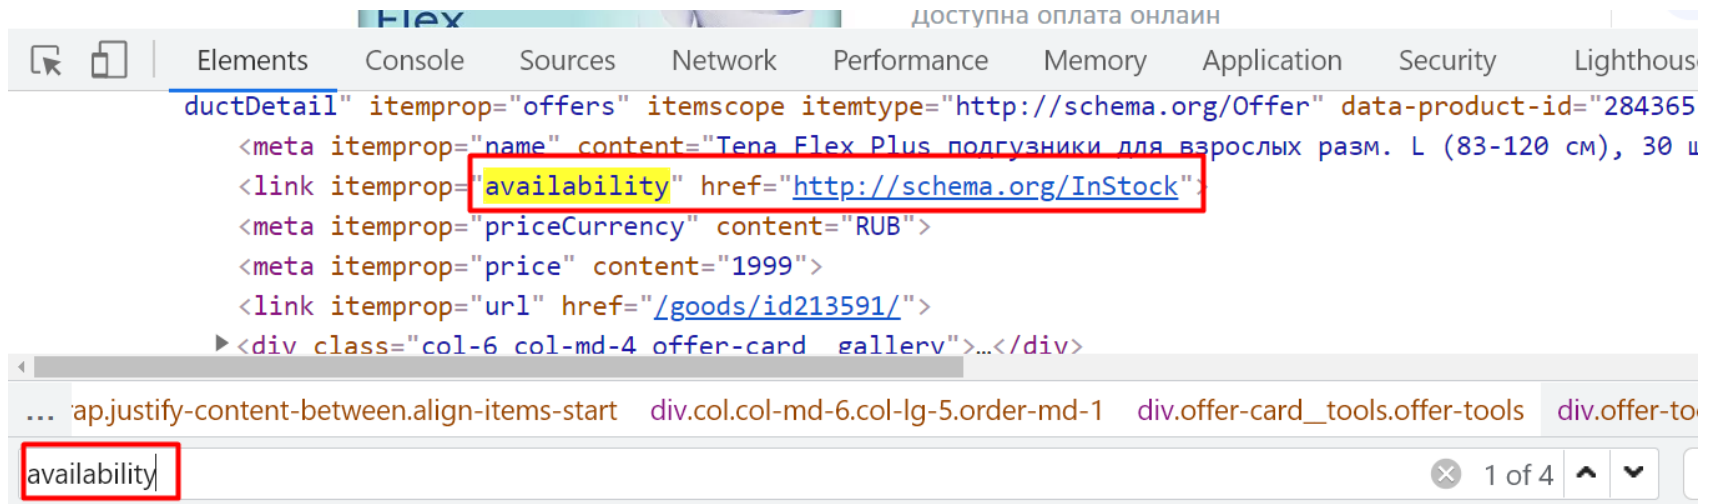

★ **In_store_price** : DEPRECATED

★ **In_store_price_currency** : DEPRECATED

★ **Additional_description** :
  - Go to the Product page using the product URL.
  - Check if a detailed description is present on the product page.
  - As per the data dictionary If the description is being retrieved from multiple places then those all should be concatenated with single pipes.
  - Bullet points should be concatenated with double pipes.

  Ex: **https://www.macys.com/shop/product/adidas-mens-badge-of-sport-foil-logo-t-shirt?ID=11322433**

Product Details   —

Shine bright in the Badge of Sport T-shirt from adidas, featuring a bold take on the iconic logo front and center, and made from cotton for extended comfort.

- Crewneck
- Imported
- Logo at front
- Savings Based On Offering Prices, Not Actual Sales
- Web ID: 11322433

Materials & Care

- 100% cotton
- Machine washable

★ **Ingredients_list :**

- Go to the Product page using the product URL.
- Check if there is an ingredients list present on the website, then it is retrieved properly or not.
- Check the complete ingredients list is retrieved successfully or not.
- Check there are no special characters that are retrieved in the actual data.

Ex: Water Softener, Cleaning Agents, Dishwasher And China Protection Agent, Water, Thickening Agent, And Bleach.
Product URL: https://www.amazon.com/dp/B000VDX2IS

Ingredients

Water Softener, Cleaning Agents, Dishwasher And China Protection Agent, Water, Thickening Agent And Bleach.

★ Brand :

- Go to the Product page using the product URL.
- Check if there is a brand present on the website and DOM then it is retrieved properly or not.
- If the brand is available on the website or DOM it should be mandatorily retrieved to t6 data.
- Sometimes brand name will be given in product name itself but if pattern is same in all product pages then only its possible to fetch them else can not be fetched.
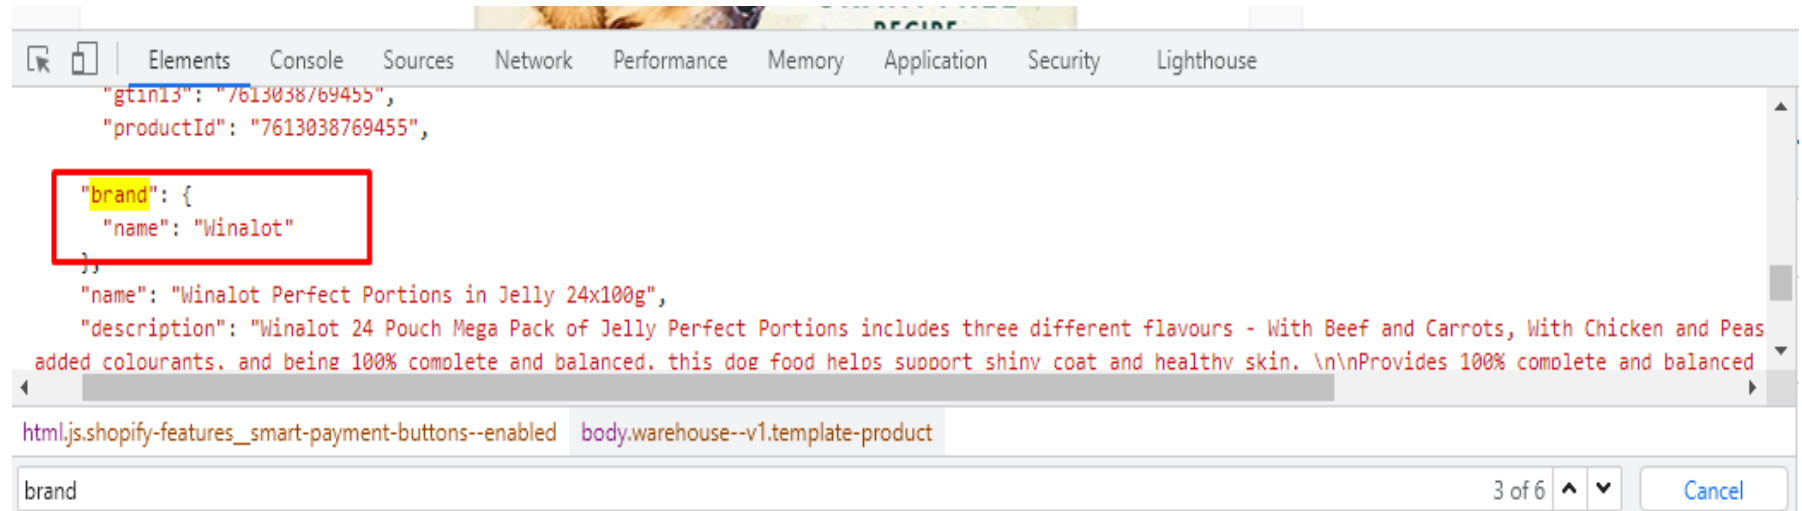

★ Manufacturer_name

- It should be fetched as the name of the company who makes the product.
- Search in DOM/Website using "Manufacturer" or "Producer" text.

Brand	Western Digital
Series	P10 Game Drive
Item model number	WDBA3A0050BBK-WESN
Hardware Platform	PC, Mac
Item Weight	8.1 ounces
Product Dimensions	4.65 x 3.46 x 0.82 inches

sku   1 of 11 ∧ ∨   Cancel

★ retailer_product_code

- Retailer specific codes are unique but they can be exchangeable with SKU also.
- This should be unique for each variant.

★ directions_information

- Additional directions of the product/package.
- It's nothing but the direction provided for product usage.

Directions:

Do not expose to temperatures exceeding 50º C. Keep in cool place away from heat and sunlight.

★ Warnings

- Any warning associated with product or packaging.
- Example: For external use only. if prone to allergic reactions to aspirin or salicylates, consult a doctor before use

★ **serving_size**
- The size of serving nutritional information is based on.

Example: per 100gm

★ **Serving_size_uom**
- Unit of measuring the serving

Example: G

★ **Number_of_servings_in_package**
- Suggest the number of serving should be taken for the nutritional information for calories for Fat content

Example: 1 spoon

★ **Calories_per_serving**
- Suggest the number of serving should be taken for the nutritional information for the product

Example: 540 cal

★ **Calories_from_fat_per_serving**
- Nutritional information for calories for serving content in % -Usually based on per 100g serving.
- **Example: %**

★ **Total_fat_per_serving**
- Nutritional information for calories for serving content -Usually based on per 100g serving
- **Example: 30 % fat**

★ **Total_fat_per_serving_uom**
- Nutritional information for calories for a unit of measure per 100g serving
- **Example: g**

★ **saturated_fat_per_serving**
- Nutritional information for calories for serving content -Usually based on per 100g serving.
- **Example: 20**

★ **saturated_fat_per_serving_uom**
- Unit of the measure of data for saturated Fat content.
- **Example: g**

★ **trans_fat_per_serving**
- Nutritional information for calories for serving content -Usually based on per 100g serving
- **Example: 0.1**

★ **trans_fat_per_serving_uom**
- Unit of the measure of data for saturated Fat content
- **Example: g**

★ **cholesterol_per_serving**
- Nutritional information for calories for serving content -Usually based on per 100g serving
- **Example: 45**

★ **cholesterol_per_serving_uom**
- Units of the measure of data for saturated Fat content
- **Example: g**

★ **sodium_per_serving**
- Nutritional information for calories for serving content -Usually based on per 100g serving.
- **Example: 0.182**

★ **Sodium_per_serving_uom**

- Units of the measure of data for saturated Fat content
- **Example: mg**

★ Total_carb_per_serving
- Nutritional information for calories for serving content -Usually based on per 100g serving.
- **Example: 12.5**

★ total_carb_per_serving_uom
- Units of the measure of data for saturated Fat content
- **Example: mg**

★ dietary_fibre_per_serving
- Nutritional information for calories for serving content -Usually based on per 100g serving.
- **Example: 1.1**

★ dietary_fibre_per_serving_uom
- Units of the measure of data for saturated Fat content
- **Example: g**

★ **total_sugars_per_serving**
  - Nutritional information for calories for serving content -Usually based on per 100g serving.
  - **Example: 0.2**

★ **total_sugars_per_serving_uom**
  - Units of the measure of data for saturated Fat content
  - **Example: g**

★ **protein_per_serving**
  - Nutritional information for calories for serving content -Usually based on per 100g serving.

  Example: 3.1

★ **protein_per_serving_uom**
  - Units of the measure of data for saturated Fat content

  Example: g.

★ **vitamin_a_per_serving**
  - Nutritional information for calories for serving content -Usually based on per 100g serving.

  Example:2

- ★ **Vitamin_a_per_serving_uom**
  - Units of the measure of data for saturated Fat content

  Example: %

- ★ **Vitamin_c_per_serving**
  - Nutritional information for calories for serving content -Usually based on per 100g serving.

  Example: 2

- ★ **Vitamin_c_per_serving_uom**
  - Units of the measure of data for saturated Fat content.

  Example: %

- ★ **Calcium_per_serving**
  - Nutritional information for calories for serving content -Usually based on per 100g serving.

  Example: 456

- ★ **Calcium_per_serving_uom**
  - Units of the measure of data for saturated Fat content

  Example: mg

- ★ **Iron_per_serving**
  - Nutritional information for calories for serving content -Usually based on per 100g serving.

  Example: 30

★ **Iron_per_serving_uom**
  - Units of the measure of data for saturated Fat content

  Example: %

★ **Dietary_symbols**
  - Information related to the dietary symbol of specific products

  Example: which are suitable for vegetarians

★ **Secondary_image**
  - Other than the main product image all the secondary images should be retrieved to t6 data which should be separated with single pipe "|".
  - Check if the URLs are broken or not having https.
  - Check if URLs are redirecting to valid images.
  - Validate the images against the website.

  URL:https://www.amazon.in/dp/B07QK29V9G/ref=s9_acsd_al_bw_c2_x_1_i?pf_rd_m=A1K21FY43GMZF8&pf_rd_s=merchandised-search-4&pf_rd_r=YJAM0QFMXEPE5W66HT60&pf_rd_t=101&pf_rd_p=da4804fb-ce8a-4a6c-8832-0999122b0ae0&pf_rd_i=21524334031

★ **Number_of_customer_reviews**

 ● The number of customer reviews given by the customer for the product on the website.

Example: 10544
URL:https://www.amazon.in/dp/B07QK29V9G/ref=s9_acsd_al_bw_c2_x_1_i?pf_rd_m=A1K21FY43GMZF8&pf_rd_s=merchandise

Benefits

★ **Category_ranking:** DEPRECATED

★ **Shipping_details**
  - Seller name should be fetched here.
  - Ex: Ships & sold by amazon.com.

★ **Shipping_dimensions**
  - Physical dimension of the product including packaging.

Product details

Product Dimensions : 12 x 8 x 2.5 cm; 350 Grams

Date First Available : 10 August 2020

Manufacturer : Amazon Brand - Symbol

ASIN : B08FJQ1T3V

Item model number : SYMJG-TO-01

Country of Origin : India

Department : Men

Manufacturer : Amazon Brand - Symbol, Nisha Design, Karnataka

Packer : Nisha Design

Importer : Nisha Design, Karnataka

★ **Specifications:**
  - The physical dimensions of the products include the package dimensions.

- Populate as per the vendor for the existing stores.

Technical Specificaions :

Brand : OnePlus
Model : 32Y1
Model Year : 2020
Item Weight : 3.5 Kg
Product Dimensions : 71.3 x 6.5 x 42 cm
Batteries : 2 AAA batteries required
Ram Memory Installed Size : 1 GB
Operating System : Certified Android
Hardware Interface : HDMI, USB
Graphics Coprocessor : Mali470 Triple core
Resolution : 720p
Included Components : 1 LED TV, 2 Table Stand Base, 1 User Manual
Number Of Items : 1 Unit
Display Technology : LED
Screen Size : 32 Inches
Display Type : LED
Image Contrast Ratio : 5000:1
Supported Image Type : JPEG, GIF, PNG, TIFF, RAW
Screen Resolution : 1366 x 768 pixels
Display Resolution Maximum : 1366x768 Pixels
Supported Audio Format : mp3_audio, wma
Speaker Surround Sound Configuration : Dolby Audio
Power Source : AC
Batteries Included : No

★ **Shipping_weight**
- The weight of the product including the package.

Example: 8 ounces

★ **Warranty**
  ● Guarantee associated with the product.

  Example :1 year warranty for the product like mobile

★ **Ean_gtin**
  ● Go to the Product page using the product URL.
  ● Check the retrieved ean_gtin is matching with the ean/ ean_gtin value available on the product page.
  ● In case it is not available on the product page check-in the DOM searching with ean, ean_gtin, gtin,barcode,upc keywords.

  Ex: 5011408065015

  Product URL: https://www.tesco.com/groceries/en-GB/products/25003732

★ **Storage**
  ● Suggested storage location of the product.
  ● Check if the storage location of the product is available on the website or not, if storage location is not available then it should retrieve as "empty".

  Ex: Ambient

  Product URL: https://groceries.asda.com/product/hi-pp-first-milk/hi-pp-1-first-infant-baby-milk-powder-from

★ **Country_of_origin**
  ● Check if the country of origin is available on the website
  ● Should retrieve the country from which the product originates.
  ● Check if these attribute details are available in the middle of the description then they should not be retrieved.
  ● Check DOM as well to get the details of this attribute.

Ex: Germany/ Made in China.

Product URL:https://groceries.asda.com/product/hi-pp-first-milk/hi-pp-1-first-infant-baby-milk-powder-from-birth/910000224974

★ **Allergy_advice**
- Should retrieve allergy information associated with the product.

Ex: Contains: Fish, Milk.

Product URL: https://groceries.asda.com/product/hi-pp-first-milk/hi-pp-1-first-infant-baby-milk-powder-from-birth/910000224974

★ **Recycling_information**
- Should retrieve recycling information associated with the product.

Ex: Widely Recycled: Box.

Product URL: https://groceries.asda.com/product/hi-pp-first-milk/hi-pp-1-first-infant-baby-milk-powder-from-birth/910000224974

★ **Salt_per_serving**
- Check the salt per serving retrieved as per website or not.
- Check if there is no salt per serving attribute present then it should be "empty" or not.

Ex: 0.59

Product URL: https://groceries.asda.com/product/breakfast-biscuits/belvita-breakfast-biscuits-soft-bakes-filled-choco-hazelnut-5-pack/1000003092695

★ **Salt_per_serving_uom**
- Check if the salt details are retrieved as per the website or not.
- Check the Units of that particular product are retrieved fine or not.

Ex: g

Product URL: https://groceries.asda.com/product/breakfast-biscuits/belvita-breakfast-biscuits-soft-bakes-filled-choco-hazelnut-5-pack/1000003092695

★ **Serving_size_2** : DEPRECATED

★ **Serving_size_2_uom** : DEPRECATED

★ **Dietary_information**
- Check whether any dietary information is retrieved as per the website or not.

Ex: Organic

Product URL: https://groceries.asda.com/product/hi-pp-first-milk/hi-pp-1-first-infant-baby-milk-powder-from-birth/910000224974

★ **Product_other_information**
- Should retrieve the details of other product information.
- Infos should be separated with a single pipe.

Product URL: https://groceries.asda.com/product/hi-pp-first-milk/hi-pp-1-first-infant-baby-milk-powder-from-birth/910000224974

★ **Packaging**
- Should retrieve packaging information of the product if available on the website.
- Check if the product contains package details in the Product description, then details are being retrieved successfully or not.
- Check if packaging information is not available then it is retrieved "empty" or not.

Ex: Box.

★ **Additives**
  - Should retrieve a list of additives in the product.
  - Check if additives are not available on the website then it is retrieved "empty" or not.

  Ex: Free From Artificial Colours, Artificial Flavours, Artificial Sweeteners.

  Product URL: https://groceries.asda.com/product/family-cereals/w-k-kellogg-kids-no-added-sugar-blueberry-apple-beetroot-multigrain-shapes-cereal/1000192700033

★ **Footer_product_info** DEPRECATED
★ **Award_symbol** DEPRECATED
★ **Drive** DEPRECATED

★ **Enhanced_content**
  - Go to the Product page using the product URL.
  - Check if more enriched details and descriptions of the product provided by a 3rd party are being retrieved as per the website or not.
  - Check if the enhanced content field is being retrieved as empty if there is no information available on the website related to enhanced content. If information is retrieved from multiple places then it should be concatenated with spaces

★ **Retailer_category** DEPRECATED
★ **Retailer_subcategory** DEPRECATED

★ **Additional_desc_bullet_count**

- Count of bullet points in the additional description section.
- **Data dictionary check**: All ul > li tags should be replaced with double pipes and can be checked into the DOM.

Ex: 3

Product URL: https://www.amazon.com/dp/B06Y1RNQBJ

★ **Video**
- Check if the correct URLs of the videos are being retrieved if they are available on the website.
- Videos usually are with product images or in the product descriptions.
- Check if all the available video URLs, which are present on the website are being retrieved or not.
- Check if the video field is being retrieved as a video URL, which is not broken.

Ex: https://d2y5sgsy8bbmb8.cloudfront.net/v2/87e2642b-7f90-5624-8dfd-2a128b79b3ae/ShortFormGeneric-480p-16-9-1409173089793-rpcbe5.mp4

Product URL: https://www.amazon.com/dp/B0063KB6JU

★ **Coupons**
- Go to the Product page using the product URL.
- Check coupon info is being retrieved when coupon discount information is available on the website.
- Check if the coupons field is being fetched as empty when no coupon is available on the website.
- Example: Save an extra $11.74 when you apply this coupon.

Ex: Save an extra $3.00 when you apply this coupon.

Product URL: https://www.amazon.com/dp/B071VHHL96

★ **Products_per_page**
- Go to the Product page using the product URL.
- Check if the products_per_page column's value is being retrieved with the count of "Number of variants listed" on the product's website. If variant count is not present then by default it should be 0 else no. of count should be retrieved here.

Ex: 4

Product URL: https://www.amazon.com/dp/B002YD8FRQ?th=1

★ **Retailer_id:**

Deprecated (Retrieved as a blank column)

★ **Addon_item:**

Deprecated (Retrieved as a blank column)

★ **Syndicated_data:**

Deprecated (Retrieved as a blank column)

★ **Harvested_price**
- Go to the Product page using the product URL.
- Check if the Harvested Price is retrieved as it is displayed on the website.
- Compare the retrieved Online Price with the online price on the product page.
- This is nothing but a discounted price given on the product.
- Currency symbol should also be retrieved for this attribute.
- If the value is retrieved with dot instead of comma we can ignore it as an issue.

Ex: $33.14

Product URL: https://www.amazon.com/Viva-Naturals-Fish-Supplement-Capsules/dp/B014LDT0ZM?ref_=Oct_s9_apbd_orecs_hd_bw_b7ZtYhP&pf_rd_r=2N4PEMMXMMEG59SWAFBD&pf_rd_p=ba396afd-5cfb5938-8d50-d154a3fdb62c&pf_rd_s=merchandised-search-10&pf_rd_t=BROWSE&pf_rd_i=6943343011

★ **Price_per_unit**
- Should retrieve the price of the product which has been listed in certain units
- Should retrieve the value as "empty" price is not given in units.

Ex: 84.4p/100

Product URL: https://groceries.asda.com/product/ice-lollies/del-monte-3-100-juice-orange-lollies/910000525619

★ **price_per_unit_uom**
- Should retrieve measurement of the product which is given in unit wise
- Check if the price per unit is not available on the website then the retrieved value is "empty" or not.

Ex: ml

Product URL: https://groceries.asda.com/product/ice-lollies/del-monte-3-100-juice-orange-lollies/910000525619

★ **Scrape_code**
- This is basically an input, make sure it is having data URL/ ASIN/SKU.
- Check the retrieved URLs are redirecting to the correct product page or not.
- You should be able to find the product on the website by searching with this code.

Note: Depending on the website it could be any attribute to identify the product uniquely.

Ex: B00005V9BT

Product URL: https://www.amazon.com/dp/B00005V9BT

★ **Image_alt_text**
- Go to the Product page using the URL.
- Hover the cursor on the image and check whether any text or tooltip is displaying. (or)
- Check in the DOM for the text available in the **img_alt** element for the respective main image.

Ex: Clearasil Ultra Daily Face Wash 6.78 oz(Pack of 8)

Product URL: https://www.amazon.com/dp/B06Y1RNQBJ

○ **Promotion**
- Should retrieve promotions shown on the product page.
- Check under this attribute other details like SKU/ UPC/ Advertisement are not being retrieved.
- Check if promotion is not available then the retrieved value is empty or not.
- Promotion text defines the discount on the original product price.

Ex: 2 for £3.00

Product URL: https://groceries.asda.com/product/ice-lollies/del-monte-3-100-juice-orange-lollies/910000525619

★ **Harvested_review_rating**

Deprecated (Retrieved as a blank column)

★ **Extended_product_description:**

Deprecated (Retrieved as a blank column)

★ **Rpc_sku_hybrid**
  - Go to the Product page using the product URL.
  - Check if the retrieved rpc_sku_hybrid and the rpc_sku_hybrid value present on the product page are the same.
  - Search on the product page or in DOM using RPC/rpc_sku_hybrid keywords.

★ **Lbb**
  - Go to the Product page using the product URL.
  - The attribute should populate with Yes when the product is bought from some other seller than Amazon (on Amazon Website) - even though Amazon has the product "in Stock" else populate with No.

  Ex: YES.

  Product URL: https://www.amazon.com/dp/B06Y1RNQBJ

★ **lbb_price**
  - Go to the Product page using the product URL.
  - The attribute should populate with price values, when the product is bought from some other seller than Amazon (on Amazon Website) - even though Amazon has the product "in Stock" else retrieve it blank.
  - If there are multiple sellers, retrieve them all separated with a single pipe.

  Ex: 57.14 | 58.23

  Product URL: https://www.amazon.com/dp/B06Y1RNQBJ

★ **Feature_bullets**

- Go to the Product page using the product URL.
- Check if the feature bullet point is retrieved if available on the product page.
- Check there are no special characters involved in actual data.
- Check all points are retrieved separated from the pipe.
- Check if there are no feature points available then the column is retrieved as "Empty".

Ex: Visibly clearer skin in as little as 12 hours | Gel wash works quickly to open blocked pores | Dermatologist tested

★ **Pack_size**
- Go to the Product page using the product URL.
- Check if the retrieved pack_size is matching with the pack_size available on the product page.
- Search on the product page or in DOM using size/pack_size keywords.
- Note: Pack size and size both are different. Size can be dimensioned but pack size should be the count of product units.

Ex: 8
Product URL: https://www.amazon.com/dp/B06Y1RNQBJ

★ **Secondary_image_total**
- Go to the Product page using the product URL.
- Check the count of the secondary images is retrieved properly or not.
- Check if there are no secondary images available for the product then it is retrieved empty or not.
- Check whether this count is not including the "Primary/ main" image.

Ex: 1

Product URL: https://www.amazon.com/dp/B06Y1RNQBJ

★ **News**
- Go to the Product page using the product URL.
- Check if there is any news available for a specific product with tags or badges then it is retrieved successfully or not.

Ex: #1 Best Seller in Electric Air Fresheners

Product URL: https://www.amazon.com/dp/B00YR9JWAY

★ **Other_sellers_name**
- Go to the Product page using the product URL.
- Check if the name is retrieved correctly from the Other seller's section from the website or not.
- Even if we need to navigate to other pages and collect the data we should retrieve them.
- Check the name is not containing any special characters.

Ex: Hoje61|The Candy/Cosmetic Depot|Pharmapacks

Product URL: https://www.amazon.com/dp/B0063KB6JU

★ **Other_sellers_price**
- Go to the Product page using the product URL.
- Check whether the price is retrieved correctly from the other seller's section from the website or not.
- Even if we need to navigate to other pages and collect the data we should retrieve them.
- Check if in case of multiple seller prices, each price is separated with single pipes.
- Check if there is no price then it is retrieved as "empty".
- Price should be excluding currency.

Ex: 2.47|7.25|7.35

Product URL: https://www.amazon.com/dp/B0063KB6JU

★ **Other_sellers_shipping**
- Go to the Product page using the product URL.
- Check the shipping price details are retrieved from the other seller's section.
- Check If in case of multiple sellers, each shipping price is separated with single pipes.
- Even if we need to navigate to other pages and collect the data we should retrieve them.

- Check if there are no shipping details present then retrieved as "empty".
- Price should be excluding currency.

Ex: 4.78|0.00|0.00

Product URL: https://www.amazon.com/dp/B0063KB6JU

★ **Coupon_discount_percentage :**

Deprecated (Retrieved as a blank column)

★ **Coupon_on_full_page_tex:**

Deprecated (Retrieved as a blank column)

★ **Brand_url**

- Go to the Product page using the product URL.
- Check whether the retrieved URL is redirecting correctly or not.
- Check if the URLs are broken.
- Check whether the URL is containing the correct address or not.

Ex: https://www.amazon.com/stores/Clearasil/page/8C16FAA7-2A19-47B9-B3D6-A66D12EAEF0B?ref_=ast_bln

Product URL: https://www.amazon.com/dp/B06Y1RNQB

★ **International_shipping**
- Go to the Product page using the product URL.
- Check whether international_shipping details are retrieved as per the website or not.
- Check if the details are retrieved without including any special characters.

- Check if there is no data present on the website then it is retrieved with " This item is not eligible for international
- shipping."

Ex: This item can be shipped to select countries outside of the U.S.

Product URL: https://www.amazon.com/dp/B06Y1RNQBJ

★ **Sales_rank**
- Go to the Product page using the product URL.
- Check whether sales_rank attribute details are retrieved as per the website or not.
- For Amazon sales_rank value is available under "Best Sellers Rank" data.
- Check whether in the retrieved data there are no special characters involved.
- Check whether the data is separated only with pipe delimited.

Ex: 752678 | 5057

Product URL: https://www.amazon.com/dp/B06Y1RNQBJ

★ **Sales_rank_category**
- Go to the Product page using the product URL.
- Check these attribute details are retrieved only for the Amazon website.
- Check whether these attribute details are not retrieved with product category details.
- Check if the specific product is available in different categories on amazon websites, then the same details are retrieved or not.
- Check if there are multiple categories available then it is separated only with pipe delimited.
- For Amazon sales_rank_category value is available under "Best Sellers Rank" data.

Ex: Beauty & Personal Care | Facial Cleansing Washes

Product URL: https://www.amazon.com/dp/B06Y1RNQBJ

★ **Subscription_price**
  - Go to the Product page using the product URL.
  - Check if the product has any subscription then the price which is available on the website is retrieved correctly or not.
  - Check if there is no subscription price available then it is retrieved as "Empty".
  - Check the price is retrieved based on locale.

  Ex: 2.82

  https://www.amazon.com/dp/B01EHEIVI

★ **Subscribe_and_save**
  - Go to the Product page using the product URL.
  - Check if the product contains any subscription on the website then retrieved as "yes" or else value should be retrieved as "No".

  Ex: YES

  https://www.amazon.com/dp/B01EHEIVI2

★ **Hero_quick_promo_headline**
  - Go to the Product page using the product URL.
  - Check for the Promo on the header of the product page.
  - Check whether the complete promo is retrieved properly or not.
  - Check if there are multiple promos available then all of them are retrieved successfully or not.

  Ex: Shop Kids Store by age (https://i.imgur.com/gbf5a4D.png)

★ **Hero_quick_promo_image_url**
  - Go to the Product page using the product URL.
  - Check for the Promo on the header of the product page.
  - Check the retrieved URL is redirecting the promo image correctly or not.
  - Check the retrieved image URL is not broken.

Ex: https://images-na.ssl-images-amazon.com/images/G/01/img20/parent/family/ilm/PX-SBA-Multiclick-650x45_v2._CB430493881_.jpg

★ **Hero_quick_promo_url**
   ● Go to the Product page using the product URL.
   ● Check for the Promo on the header of the product page.
   ● Check whether the retrieved URL is redirecting the promo page correctly or not.
   ● Check the retrieved URL is not a broken one.

   Ex: https://www.amazon.com/fcx/shop-by-age?age=0m_24m&pd_rd_w=sridg&pf_rd_p=93dce5d1-e879-4512-97ed-69ad71838281&pf_rd_r=7QHKJ4Q38WWVSTR7FGPV&pd_rd_r=6b56f5a3-3d76-42bd-949edf2e136c6bba&pd_rd_wg=Hu8Qi

★ **Pasin**
   ● Go to the Product page using the product URL.
   ● Check if the attribute details are available on the website or not.
   ● Check-in DOM whether any element as "parent_asin" is available & if available then it is retrieved successfully or not.
   ● Check whether the retrieved data is not an Asin Number of the product.
   Ex: B07NC8NN7H

   Product URL: https://www.amazon.com/dp/B01EHEIVI2

★ **Video_length**
   ● Go to the Product page using the product URL.
   ● Check whether the details are retrieved as per the video duration or not.
   ● Check if there are multiple videos available then they are retrieved by separating them with pipe delimited.
   Ex: 0:27| 0:34 | 0:05

   Product URL: https://www.amazon.com/dp/B06Y1RNQBJ

★ **Other_sellers_prime**
  - Go to the Product page using the product URL.
  - Check if the product contains other sellers with prime on the website then it is retrieved "Yes" or else "No".
  - Even if we need to navigate to other pages and collect the data we should retrieve them.
  - Check if there are multiple other_sellers_prime available then they are retrieved by separating it with pipe delimited.

  Ex: NO | NO | NO

  Product URL: https://www.amazon.com/dp/B0063KB6JU

★ **Prime_note:**

  Deprecated (Retrieved as a blank column)

★ **Deal_price:**

  Deprecated (Retrieved as a blank column)

★ **Ingredient_image_present**
  - Go to the Product page using the product URL.
  - Check if when "Ingr" is present under color Images element" in DOM then it is retrieved with "Yes" else "No"

★ **Fact_image_present**
  - Go to the Product page using the product URL.
  - Check if when "FACT" is present the color "Images element" in DOM then it is retrieved with "Yes" else "No".

  Ex: YES

  Product URL: https://www.amazon.com/dp/B009RWV3LW

★ **Large_image_count**
  - Go to the Product page using the product URL.

- Check if the "ImageBlockATF" tag is present in DOM, then Count number of times text 'SL1500_.jpg' appears in tag ImageBlockATF.
- Check if there is no tag present then it should be retrieved as Empty.

Ex: 9

Product URL: https://www.amazon.com/dp/B009RWV3LW

★ **Variant_asins**
- Go to the Product page using the product URL.
- Check if the product is containing multiple variants then all the Variant_asins are retrieved by separating with pipe delimited.

Ex: B010DYWCRQ | B010DYWCRQ | B000VCBYLG | B010DYWCR

Product URL: https://www.amazon.com/dp/B009RWV3LW

★ **Andon_cord**

Deprecated (Retrieved as a blank column)

★ **Prime_flag**
- Go to the Product page using the product URL.
- Check if the prime_flag is retrieved as per the below conditions mentioned
- **Note**: Only used for Amazon sites.
- 'Yes - Shipped & Sold' if shipping_details contains 'Sold by Amazon'
- 'Yes - Fulfilled' if shipping_details contains 'Fulfilled by Amazon'
- 'Prime Pantry', If words 'Prime Pantry' appear in tag 'meta name'
- 'Add-On' if this tag exists <i id=""burjActionPanelAddOnBadge"" class=""a-icon a-icon-addon"">Add-on Item</i>
- 'Prime Exclusive' if the following text appears on page 'Exclusively for Prime Members' example B00IB1D0IO
- 'No' if none of the items below exist on the page" (it's in English in other regions as well, ex: NL and ES)

Ex: Yes - Fulfilled

Product URL: https://www.amazon.com/dp/B009RWV3LW

★ **List_price**
- Go to the Product page using the product URL.
- Compare the retrieved List Price with the list price on the product page.
- This is nothing but the main price of the product. If any discount will be given on the product then it will be displayed with a struck symbol.
- List price value should be retrieved without a currency symbol.
- Note: The price may vary from time to time depending on the sales and offers. In that case, check for me other URLs if the retrieved list price values are matching with the website.

Ex: 38.99

Product URL: https://www.amazon.com/Viva-Naturals-Fish-Supplement-Capsules/dp/B014LDT0ZM?ref_=Oct_s9_apbd_orecs_hd_bw_b7ZtYhP&pf_rd_r=2N4PEMMXMMEG59SWAFBD&pf_rd_p=ba396afd-5cfb5938-8d50-d154a3fdb62c&pf_rd_s=merchandised-search-10&pf_rd_t=BROWSE&pf_rd_i=6943343011

★ **Alcohol_content**

- Should retrieve alcohol content information if it is present on the product page.
- Check whether the retrieved details are matched with the website or not.
- Check if the alcohol content is not available on the product page then it is retrieved empty or not.

Ex: 0.5

Product URL: https://groceries.asda.com/product/no-low-alcohol-beer/franziskaner-weissbier-german-wheat-beer-bottle/1000009132459

★ **Stock_number**

Deprecated (Retrieved as a blank column)

★ **Sales_volume_per_month**

Deprecated (Retrieved as a blank column)

★ **Legal_disclaimer**
- Go to the Product page using the product URL.
- Check if the retrieved legal disclaimer and the legal_disclaimer present on the product page are the same.
- Should get information below the legal disclaimer section on the product page.

Ex: Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

Product URL: https://www.amazon.com/dp/B0063KB6JU

★ **Mpc**
- Go to the Product page using the product URL.
- Check if the retrieved mpc and the mpc available on the Product page are the same.
- This code is the unique product code given by the manufacturer it can be searched on the product page or in
- DOM using mpc /Manufacturer Product code keywords.

Ex: 78283CT

Product URL: https://www.amazon.com/dp/B0063KB6JU

★ **Drive_id**

Deprecated (Retrieved as a blank column)

★ **Harvested_list_price**
- Go to the Product page using the product URL.
- Check if the Harvested List Price is retrieved as it is displayed on the website.
- This is nothing but the main price of the product. If any discount will be given on the product then it will

Ex: 38.99

Product URL: https://www.amazon.com/Viva-Naturals-Fish-Supplement-Capsules/dp/B014LDT0ZM?ref_=Oct_s9_apbd_orecs_hd_bw_b7ZtYhP&pf_rd_r=2N4PEMMXMMEG59SWAFBD&pf_rd_p=ba396af d-5cfb5938-8d50-d154a3fdb62c&pf_rd_s=merchandised-search-10&pf_rd_t=BROWSE&pf_rd_i=6943343011
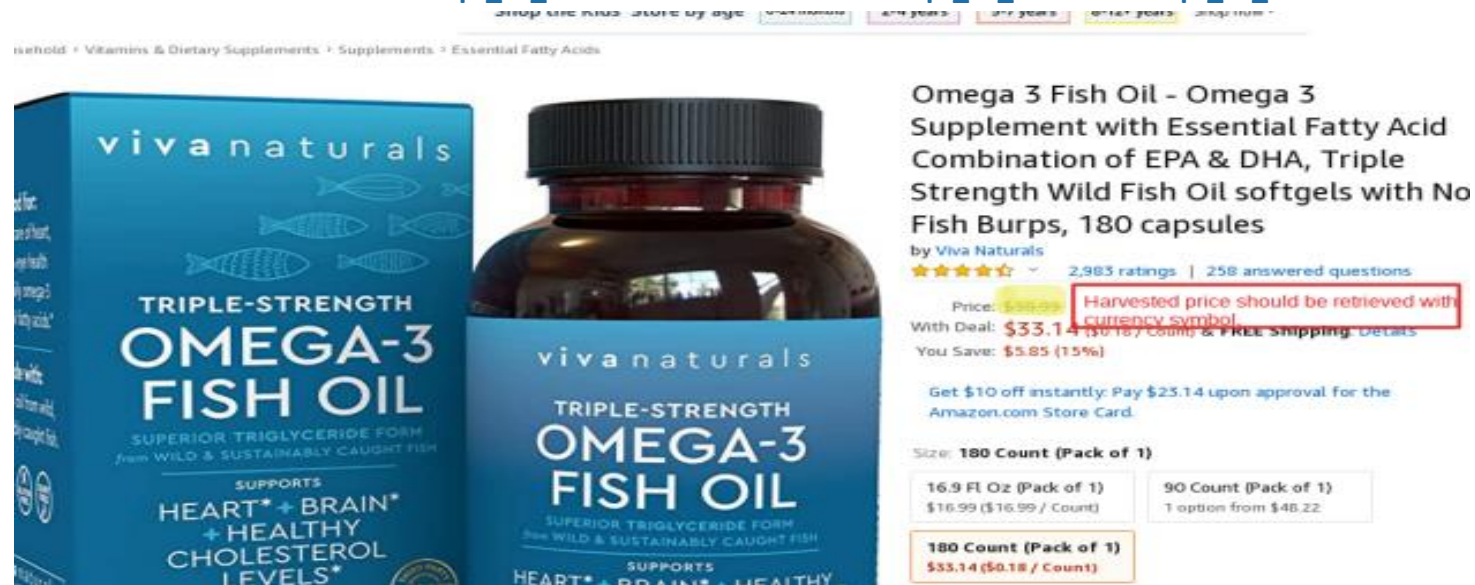

★ **in_store_availability**

Deprecated (Retrieved as a blank column)

★ **Harvested_product_description**
- Go to the Product page using the product URL.
- Check if the harvested_product_description is being retrieved with the product (Title).

Ex: Mop & Glo Multi-Surface Floor Cleaner, 32 Ounce (Pack of 2)

Product URL: https://www.amazon.com/dp/B010DYWCRQ

★ **new_version**
 ● Should retrieve a new version of the product.
 ● Check if the version is not available on the product page then it is retrieved empty or not.

 Ex: There is a newer model of this item:

★ **new_asin**
 ● Should retrieve asin number of the new version product available on the old product page.
 ● Check if a new asin number is not available on the product page then the retrieved value is empty or not.

★ **new_description**
 ● Should retrieve a new version product description which is available on the old product page.
 ● Check if a new description is not available on the product page then the retrieved value is empty or not.

★ **Variant_information**
 ● Should retrieve different colors of the product if that is present on the product page
 ● Check if variant information is retrieved as a number or not
 ● Check if variant information is not available on the product page then the retrieved value is empty or not.

 Ex: 12 Fl Oz Bottle (Pack of 6)

 Product URL: https://www.amazon.com/dp/B008RH5K4O

★ **first_variant**
 ● Should retrieve the common code to tie the variants together.
 ● Should retrieve the 1st variant code only
 ● The retrieved one should match with the website.
 ● If the first variant is not available then it should retrieve as empty.

Ex: (parent_asin) = B0765WLF31

Product URL: https://www.amazon.com/dp/B008RH5K4O

★ **variants**
- Should retrieve all the available variants for the product
- Should retrieve the variants code in order
- If the variant is not available then the retrieved value should be empty else all variant code should be retrieved separated with a single pipe.

Ex Domain: Amazon_Apparel_US_Core daily only.
Product URL: https://www.amazon.com/dp/B0000A61YR?th=1&psc=1
Ex: B008RH5K4O | B002YD8FR6
Product URL: https://www.amazon.com/dp/B008RH5K4O

★ **Platform**

Deprecated (Retrieved as a blank column)

★ **Additional_desc_bullet_info**
- Should retrieve all the additional descriptions bullets here.
- Should retrieve the data as empty if the additional description is not available
- All bullet points should be replaced with double pipes

★ **magnesium_per_serving**
- Check if the attribute column name is retrieved as per the schema or not.
- Check if the Magnesium content data is retrieved as per the product information.
- Check if the units are not appended to the value.

- Check if the unwanted characters are not retrieved with the value.

Ex: 143

Product URL: https://groceries.asda.com/product/breakfast-biscuits/belvita-breakfast-biscuits-soft-bakes-filled-choco-hazelnut-5-pack/1000003092695

★ **Magnesium_per_serving_uom**
- Check if the attribute column name is retrieved as per the schema or not.
- Check if the Magnesium content data units are retrieved as per the product information.
- Check if the values are not appended to the units.
- Check if the unwanted characters are not retrieved with the units.

Ex: mg

Product URL: https://groceries.asda.com/product/breakfast-biscuits/belvita-breakfast-biscuits-soft-bakesfilled-choco-hazelnut-5-pack/1000003092695

★ **amazon_choice**
- This is an amazon specific attribute and is generally populated with a yes if the product is an amazon choice one. If it's an amazon price attribute that means that it is a suggestion product from Amazon to buyers.

Example URL:
https://www.amazon.in/dp/B07QK29V9G/ref=s9_acsd_al_bw_c2_x_1_i?pf_rd_m=A1K21FY43GMZF8&pf_rd_s=merchandised-search-4&pf_rd_r=YJAM0QFMXEPE5W66HT60&pf_rd_t=101&pf_rd_p=da4804fb-ce8a-4a6c-8832-0999122b0ae0&pf_rd_i=21524334031

★ **Amazon_choice_text**
- This is an amazon specific attribute and it contains the text which is located beside the amazon choice banner on the product page.

★ **Deal_type**

Deprecated (Retrieved as a blank column)

★ **Prop_65_warning**
- A warning message about products with dangerous chemicals.

★ **Allergy_information**

Deprecated (Retrieved as a blank column)

★ **Product_id**

Deprecated (Retrieved as a blank column)

★ **Shipping_information**

Deprecated (Retrieved as a blank column)

★ **Color**
  ● Colour of the product as per website (https://www.druni.es/volume-effet-faux-cils-mascara-yves-saint-laurent-mascara-pestanas)
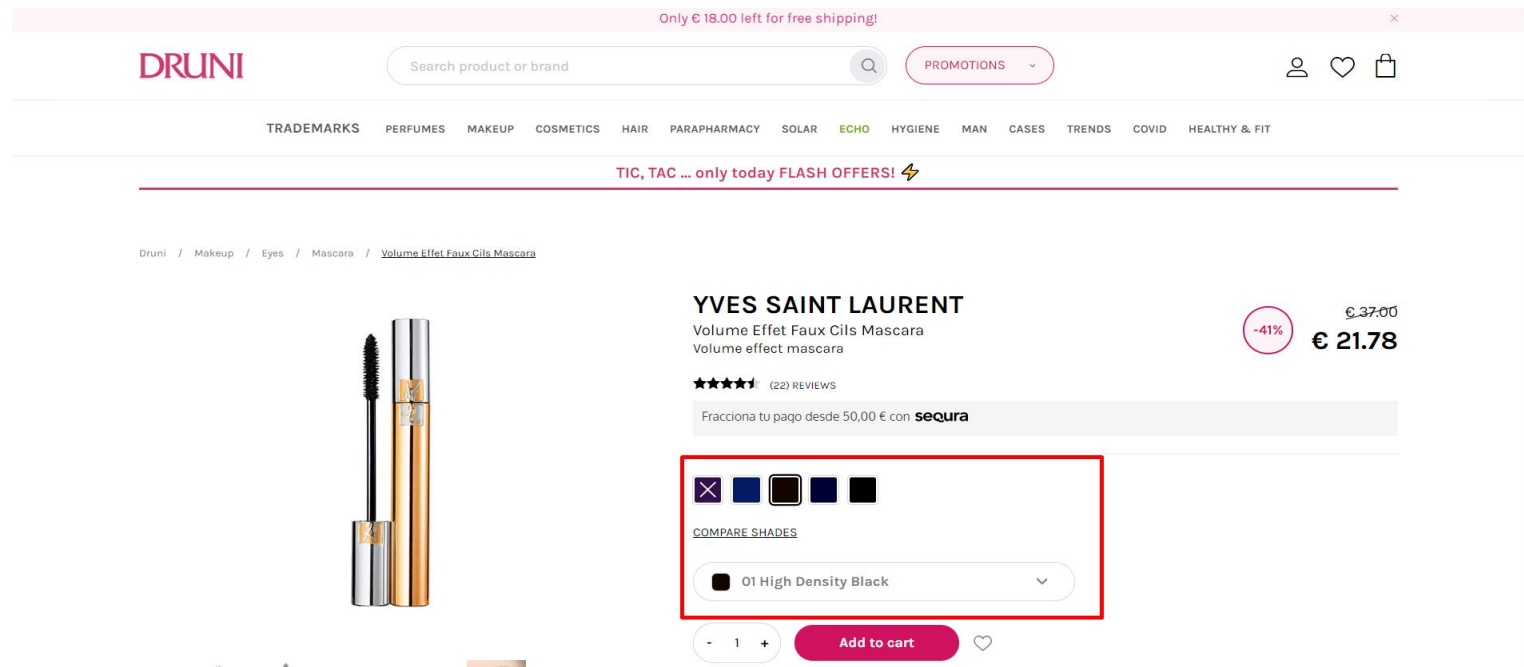

★ **Colour_ref**

- Colour reference if color is available.

★ **Fast_track**

Deprecated (Retrieved as a blank column)

★ **Supplementary_image**

Deprecated (Retrieved as a blank column)

★ **Supplementary_image_total**

Deprecated (Retrieved as a blank column)

★ **age_suitability**
- Recommended age displayed on the product page

Ex: https://www.amazon.com/LEGO-Classic-Medium-Creative-Brick/dp/B00NHQFA1I/ref=sxin_2_osp59-76e84e97_cov?ascsubtag=76e84e97-a55c-4c2f-89d1-30adf7b90923&creativeASIN=B00NHQFA1I&cv_ct_cx=lego&cv_ct_id=amzn1.osp.76e84e97-a55c-4c2f-89d1-30adf7b90923&cv_ct_pg=search&cv_ct_wn=osp-search&keywords=lego&linkCode=oas&pd_rd_i=B00NHQFA1I&pd_rd_r=23c203fd-8417-4da1-9b50-517e14554ca9&pd_rd_w=Csn14&pd_rd_wg=2lLdN&pf_rd_p=eb3e5cda-5ec9-4d94-919d-310a5d641b8b&pf_rd_r=9JQWB2SN420K44GFS7XD&qid=1582625016&tag=tbonsite-20%20To%20enable%20screen%20reader%20support,%20press%20Ctrl+Alt+Z%20To%20learn%20about%20keyboard%20shortcuts,%20press%20Ctrl+slash

★ **Energy_efficiency**
- The energy rating of a product (ex: A+, A+++, B....)

Ex: https://www.amazon.de/Siemens-WM16W541-Waschmaschine-Schnellwaschprogramm-Nachlegefunktion/dp/B015FJFK14/ref=sr_1_1_sspa?

★ **Technical_information_pdf_present**
  ● If there is for example a manual in pdf format on the website (YES/NO)

  Ex: https://www.amazon.de/Hasbro-Spiele-44220100-Mastermind-Kinderspiel/dp/B0007OHUG6)

★ **T_and_cs**
  ● Terms and Conditions information text (Yes or No)

★ **Privacy_policy**
  ● Privacy Policy information text (Yes or No)

★ **Customer_service_availability**
  ● Information related to customer service availability (Yes or No)

★ **Materials**
  ● Materials used to make the product (ex: 95% cotton…)

  Ex: https://www.amazon.com/Trinsic-Single-Handle-Magnetic-Champagne-9159-CZ-DST/dp/B0050EN8E6/ref=sr_1_3?crid=3NSCX4X1TPWS7&keywords=9159-cz-dst&qid=1581527438&sprefix=9159-%2Caps%2C212&sr=8-3)
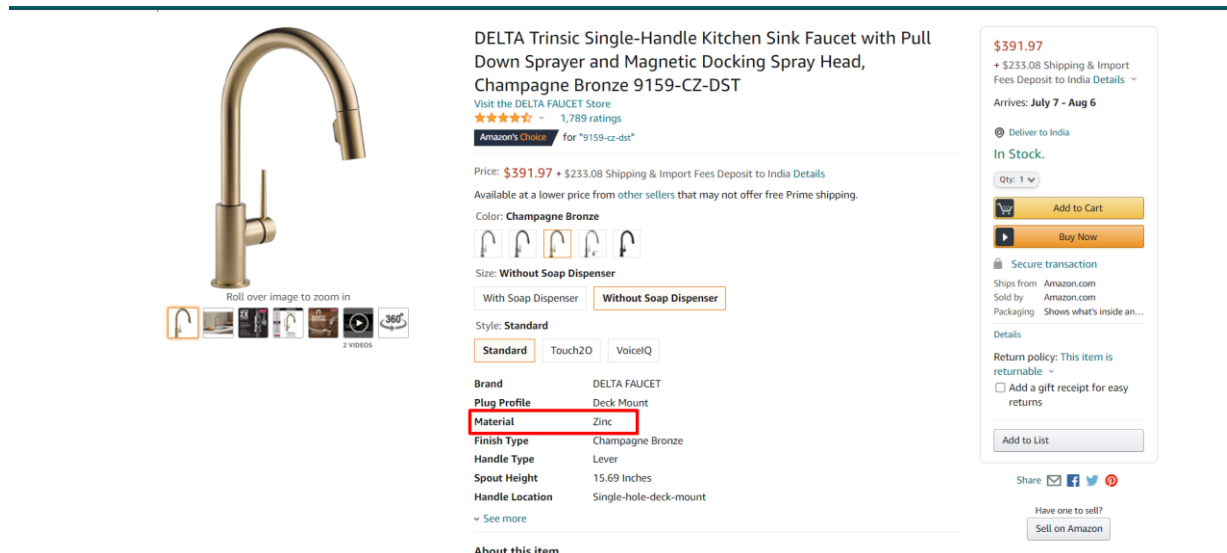

★ **three_sixty_image_present**
  ● If it is retrieved as YES then the image on the website should be visible from all angles.
  ● If a 360 image is present in the carousel

  Ex: https://www.amazon.com/Trinsic-Single-Handle-Magnetic-Champagne-9159-CZ-DST/dp/B0050EN8E6/ref=sr_1_3?crid=3NSCX4X1TPWS7&keywords=9159-cz-dst&qid=1581527438&sprefix=9159-%2Caps%2C212&sr=8-3

★ **image_zoom_feature_present**
  ● If the Product image on the website is zooming by keeping the cursor on the image then it should retrieve as YES or NO
  ● The zooming feature is available for the main image or images in the carousel

  Ex: https://www.amazon.de/Hasbro-Spiele-44220100-Mastermind-Kinderspiel/dp/B0007OHUG6

★ Tax:

Deprecated (Retrieved as a blank column)

★ Gallery_video
- The additional videos of the product which are available in the enhanced content and secondary videos then t6 data will be retrieved with ink along with pipes.

★ Virtual_try_out_present
- If the virtual try out is available then it will be retrieved to t6 data as YES and if we are not able to find it on the website then retrieved as NO

★ in_the_box_url
- Must include an image URL to show the accessories/tools which come with the product.

  URL : https://www.dyson.in/dyson-v11-absolute-nickel-blue-cord-free-vacuum-with-swappable-battery

❖ *Critical checks in the UAT tool (C1 justification addition):*

Critical checks	Justification	Example
Import Row Count	In UAT tools the import must contain at least 90 % from other vendor count or else if it fails then we need to check where the exact issue happened and need to provide the justifications	**Import Row Count: 2979** **Other Vendor Row Count: 2598**
Product Count by Availability Status	Import Retrieved correct data for In Stock, Out of stock, and void, so it's not an issue. **Import row count:** **OV Row count:** In Stock: 9 InStock: 9 Out of Stock: 11 OutOfStock: 11 Void: 0 Void: 0	**UAT SS: https://prnt.sc/13h7cz2** **T6 File SS: https://prnt.sc/13h7f8k**
Product Coverage	Passing After justification: In UAT It's reflecting as **FAIL** but its **PASS** The primary key present on UAT is not present in the Import input list so not retrieved in the workbench and T6 file. For failing After justification: In UAT It's reflecting as **FAIL** as	Passing After justification: **Primary key**: 1720946 UAT SS: https://prnt.sc/135x0ml Input File Chunk 1 SS: https://prnt.sc/133qchl Workbench SS: https://prnt.sc/133q2dd Input File Chunk 2 SS: https://prnt.sc/133qaj9 Workbench SS: https://prnt.sc/133q2dd

	The **RPC** present on UAT is not present in the Import input list and also retrieved in the workbench but not retrieved in the T6 file.	For failing After justification: **RPC**: 10030720 UAT SS : https://prnt.sc/13h5zpz Input Chunk 1 SS : https://prnt.sc/135xgae Input Chunk 2 SS : https://prnt.sc/135xh5e T6 File SS : https://prnt.sc/135xrse Workbench SS: https://prnt.sc/135xlm3 Workbench Link : https://workbench.import.io/orgs/ascential/projects/digital_shelf/collections/core_details/sources/walmart_ca/snapshots/b73b6a90-8a39-539f-ba9d-54f3c1d06f93/drilldown#sql=SELECT%20*%20FROM%20S3Object%20where%20_input%20like%20'%2510030720%25'%20LIMIT%20200
Void Check	Passing After justification: In UAT It's reflecting as **FAIL** but its **PASS** The **RPC** present on UAT is not present in the Import input list so not retrieved in the workbench and T6 file. For failing After justification: In UAT it is reflected as FAIL. Because the primary keys which are populated as fail under void check are available in the inputs list	Passing After justification: RPC: 0RG0UGLAT5OF UAT SS: https://prnt.sc/133qfcb Input Chunk 1 SS: https://prnt.sc/135wlo1 Input Chunk 2 SS: https://prnt.sc/135wmq3 Workbench SS: https://prnt.sc/135x3af Workbench Link : https://workbench.import.io/orgs/ascential/projects/digital_shelf/collections/core_details/sources/walmart_ca/snapshots/2f4fee0a-1203-55b4-

	as UPC but in the T6 file these primary keys are retrieved under RPC. So, marking it as Fail.	a131-6501f6b85f31/drilldown#sql=SELECT%20*%20FROM%20S3Object%20where%20_input%20like%20'%250RG0UGLAT5OF%25'%20LIMIT%20200 For failing After justification: Ex:- Primary key: 16853074723 SS (UAT): https://prnt.sc/13ham9j SS (Inputs): https://prnt.sc/13halo7 SS (T6 file): https://prnt.sc/13havvz
HTML-JSON Check	UAT Fails this when a particular Attribute is appended with the HTML code, in that case, we need to check whether it is appended with code or not, asf so need to fail it. Note: Needs to be PASS in UAT as it is under Critical checks if it fails then we need to fail C1.	

Masterlist Comparison	We need to check whether the given Primary key is available in INPUTS and also in T6, if it is available in INPUTS then they should retrieve them in the T6 file.	Passing After justification: **Primary key**: 1720946 UAT SS: https://prnt.sc/133qfcb Input File Chunk 1 SS: https://prnt.sc/133qchl Workbench SS: https://prnt.sc/133q2dd Input File Chunk 2 SS: https://prnt.sc/133qaj9 Workbench SS: https://prnt.sc/133q2dd For failing After justification: **RPC**: 10030720 UAT SS: https://prnt.sc/13h5zpz Input Chunk 1 SS: https://prnt.sc/135xgae Input Chunk 2 SS: https://prnt.sc/135xh5e T6 File SS: https://prnt.sc/135xrse Workbench SS: https://prnt.sc/135xlm3 Workbench Link: https://workbench.import.io/orgs/ascential/projects/digital_shelf/collections/core_details/sources/walmart_ca/snapshots/b73b6a90-8a39-539f-ba9d-54f3c1d06f93/drilldown#sql=SELECT%20*%20FROM%20S3Object%20where%20_input%20like%20'%2510030720%25'%20LIMIT%20200

Character Length	UAT Fails when the Character length is exceeded for a particular attribute, need to check the reason for that.	In the UAT itself, they will mention for the failed attribute how much character length is there and the one retrieved in the T6 file. Ref SS: https://prnt.sc/16lpf**k7**

Masterlist Comparison: 100% (1915/1915) PASS
Character Length: No Cells Exceeding DB Restrictions PASS

❖ *C2 Passing Criteria*

- All the attributes are given in the C-2 sheet, if the first 15 URLs are not having any issue then it is fine and if any one of the attributes failed for those 15 URLs we need to perform CDQA for the next 10 URLs for that particular attribute. Until we found no issue and we need to manually update the status column above that. If we found 3 issues in any one of the attributes for all 43 URLs and then we consider it as FAIL else PASS.

- Here we upload 50 URLS data and validate some set of critical fields.
  Firstly we check for 15 URLs and if we find any issue in any attribute then we will continue checking for the next URLs.

Sample size	Allowable Fail
15	0
25	1
35	2
45	3

❖ *C3 Passing Criteria*

- Here we do manual QA on records.
  Menu - 50
  Search - 50
  IM - 50
  Geo - 50
  Geo IM - 50
  RD - 50
  RD UL - 50
  Core - 10

- **=IF($D5$>0.97, "PASS", "FAIL")** - If the accuracy is above 97% then it is passed or else C-3 will be considered as Fail.

QA Team	OSM-20210616
QA Analyst Name	Ramya Kamidi

- **Qa team** - Date and name should be specified.
- **Qa name** -The name of the Qa person should be mentioned.
- In the C-3, if we found any issues regarding any attributes it should be commented along with required proofs such as screenshot and debugger link etc. regarding any issue. If the scenario got passed in the particular attribute then we need to check the boxes beside.

❖ *__Note__*:

- If for a website the URL is changing on selecting each variant then, it should consider the size combination as a unique variant and retrieve it in a separate row.

Ex: https://www.adidas.co.uk/stan-smith-shoes/FX7534.html

Expected Variants:

1. STAN SMITH SHOES - Core Black / Core Black / Cloud White - 10K
2. STAN SMITH SHOES - Core Black / Core Black / Cloud White - 10.5K
3. STAN SMITH SHOES - Core Black / Core Black / Cloud White - 11K

4. STAN SMITH SHOES - Core Black / Core Black / Cloud White - 11.5K
5. STAN SMITH SHOES - Core Black / Core Black / Cloud White - 12K
6. STAN SMITH SHOES - Core Black / Core Black / Cloud White - 12.5K
7. STAN SMITH SHOES - Core Black / Core Black / Cloud White - 13K
8. STAN SMITH SHOES - Core Black / Core Black / Cloud White - 13.5K
9. STAN SMITH SHOES - Core Black / Core Black / Cloud White - 1
10. STAN SMITH SHOES - Core Black / Core Black / Cloud White - 1.5
11. STAN SMITH SHOES - Core Black / Core Black / Cloud White - 2
12. STAN SMITH SHOES - Core Black / Core Black / Cloud White - 2.5
13. STAN SMITH SHOES - Cloud White / Cloud White / Cloud White - 10K
14. STAN SMITH SHOES - Cloud White / Cloud White / Cloud White - 10.5K
15. STAN SMITH SHOES - Cloud White / Cloud White / Cloud White - 11K
16. STAN SMITH SHOES - Cloud White / Cloud White / Cloud White - 11.5K
17. STAN SMITH SHOES - Cloud White / Cloud White / Cloud White - 12K
18. STAN SMITH SHOES - Cloud White / Cloud White / Cloud White - 12.5K
19. STAN SMITH SHOES - Cloud White / Cloud White / Cloud White - 13K
20. STAN SMITH SHOES - Cloud White / Cloud White / Cloud White - 13.5K
21. STAN SMITH SHOES - Cloud White / Cloud White / Cloud White - 1
22. STAN SMITH SHOES - Cloud White / Cloud White / Cloud White - 1.5
23. STAN SMITH SHOES - Cloud White / Cloud White / Cloud White - 2
24. STAN SMITH SHOES - Cloud White / Cloud White / Cloud White - 2.5
25. STAN SMITH SHOES - Cloud White / Cloud White / Silver Metallic - 10K
26. STAN SMITH SHOES - Cloud White / Cloud White / Silver Metallic - 10.5K
27. STAN SMITH SHOES - Cloud White / Cloud White / Silver Metallic - 11K
28. STAN SMITH SHOES - Cloud White / Cloud White / Silver Metallic - 11.5K
29. STAN SMITH SHOES - Cloud White / Cloud White / Silver Metallic - 12K
30. STAN SMITH SHOES - Cloud White / Cloud White / Silver Metallic - 12.5K
31. STAN SMITH SHOES - Cloud White / Cloud White / Silver Metallic - 13K

32. STAN SMITH SHOES - Cloud White / Cloud White / Silver Metallic - 13.5K
33. STAN SMITH SHOES - Cloud White / Cloud White / Silver Metallic - 1
34. STAN SMITH SHOES - Cloud White / Cloud White / Silver Metallic - 1.5
35. STAN SMITH SHOES - Cloud White / Cloud White / Silver Metallic - 2
36. STAN SMITH SHOES - Cloud White / Cloud White / Silver Metallic - 2.5
37. STAN SMITH SHOES - Cloud White / Cloud White / Bold Pink - 10K
38. STAN SMITH SHOES - Cloud White / Cloud White / Bold Pink - 10.5K
39. STAN SMITH SHOES - Cloud White / Cloud White / Bold Pink - 11K
40. STAN SMITH SHOES - Cloud White / Cloud White / Bold Pink - 11.5K
41. STAN SMITH SHOES - Cloud White / Cloud White / Bold Pink - 12K
42. STAN SMITH SHOES - Cloud White / Cloud White / Bold Pink - 12.5K
43. STAN SMITH SHOES - Cloud White / Cloud White / Bold Pink - 13K
44. STAN SMITH SHOES - Cloud White / Cloud White / Bold Pink - 13.5K
45. STAN SMITH SHOES - Cloud White / Cloud White / Bold Pink - 1
